

Control No. 7074
EIC/GEA/SC 2-72
30 July 1972

MEMORANDUM FOR: Chairman, Economic Intelligence
Committee

SUBJECT : Annual Report of the Subcommittee on
General Economic Analysis for FY 72

1. There was no activity in FY 72 under Items A-1 through A-8 of the Annual Report.

2. I recommend that the Subcommittee on General Economic Analysis be disbanded forthwith. In the last few years its activity has been confined to occasional reviews of economic research proposals. If a research proposal needs to be reviewed in the future, the parent EIC Committee could presumably handle the task, the more so because members of the Subcommittee often double in brass as members of the EIC.
